OUR ENGAGEMENT

A TAILOR-MADE SUPPORT TO MAKE YOUR FLYING EASIER

COST & TIME EFFICIENCY

With us, you can stop worrying about costs and time. Thanks to our expertise, we help you save time considerably while guaranteeing a clear pricing strategy with no surprises.

SIMPLIFIED DOCUMENTATION

Is it difficult to understand the possibilities that the regulation offers? UASolutions simplifies for you all the documentation and enables you to make fast facts-based decisions.

PERSONALISED APPROACH

We work closely with our clients to develop unique customized strategies that ensure safe and legal drone operations.

COMPLIANCE

Our expert team of regulatory advisors has in-depth knowledge of drone regulations and guidelines and their evolution over time.

OUR SERVICES ARE FOR

DRONES MANUFACTURERS

DRONES OPERATORS

STRATEGIC REGULATORY CONSULTING

UASolutions offers strategic regulatory advice on drone operations to organizations looking to operate drones in compliance with local and international aviation regulations. We have experience working with a wide range of industries, including construction, agriculture, energy, and telecommunications, among others and we understand the unique challenges and opportunities of each business.

Our service includes :

- Comprehensive review of local and international drone regulations
- Risk assessment after the Specific Operations Risk Assessment (SORA) methodology
- Development of a tailored compliance plan that takes into account the unique needs and goals of our clients.

RISK ASSESSMENT

UASolutions offers Specific Operational Risk Assessment (SORA) and drone compliance services for drone operators and manufacturers. We help them develop customized SORA reports that take into account the unique needs and goals of each operation and cover a wide range of operational factors, including flight conditions, geographical considerations, and potential hazards, among others.

Our service includes :

- Writing of the SORA for your operations
- ConOps support and especially documenting : Training - Systems used - Maintenance and Inspections - Procedures - Containment
- Support during the application phase and the liaising with the authority

DRONE COMPLIANCE

By partnering with UASolutions for aeronautical compliance services, drone manufacturers can have peace of mind knowing that their drones are designed, built, and operated in compliance with all applicable regulations, including those set forth by regulatory bodies such as the European Union Aviation Safety Agency (EASA).

Our service includes :

- Support for design verification processes (EASA)
- Guidance for self-declared compliance after the MOC Light-UAS.251-01 for flight termination systems and the MOC M2 for parachutes.

DRONE COMPLIANCE

UASolutions provides comprehensive compliance services to ensure that our clients' drone operations meet all regulatory requirements. If you work with us, we will take care of the training and procedures needed to fulfill the civil aviation authority requirements.

Our service includes :

- Writing an operations manual compliant with the applicable risk assessment.
- Writing the Specific Operations Risk Assessment for your operation
- Writing of an SMS compliant with EASA rules and the SORA for your operations
- Liaising with the authority to obtain an operational authorization and/or a LUC
- Support in integrating the safety risk management and the compliance culture into your company/institution

SPECIAL FINANCING SUPPORT*

Do you have a project in Switzerland related to safety and/or environmental protection in aviation ? UASolutions accompanies businesses that want to apply for special financing from the Swiss Federal Office of Civil Aviation. This funding can get you a co-financing up to 80% from the Swiss Federal Government.

Our services includes :

- Writing of the documents for a Specialfinancing project at the Swiss government.
- Obtention of funding from the Swiss Federal Office of Civil Aviation (FOCA) for drone projects using the BV87 Specialfinancing scheme.
- Support throughout the application process till the FOCA decision is taken.

** UASolutions has had a 100% success rate so far*

WORKSHOPS *

UASolutions offers engaging workshops designed to help businesses and organizations navigate the complex landscape of drone regulations. Led by experienced and knowledgeable instructors, our workshops provide participants with a comprehensive overview of the latest laws, regulations, and best practices for drone operation.

Our service includes :

- Feasibility workshop for a drone operation according to the constraints and the systems used.
- Personalized workshops tailored to meet the specific needs of the client.

** Customized service according to your specific needs*
